Britain can't afford the EU

The European Union is a huge burden on the British people. Our laws are made in Brussels instead of Westminster, and we have lost our right to self-rule. This is the reality of EU membership:

Mass immigration

We cannot afford **1,000 new people every day** coming to live in Britain. We need to take back control of our own borders.

Huge taxes

The British people pay **£40million every day** into propping up the EU and bailing out its failed economies like Greece and Ireland.

Rising unemployment

British jobs for British workers **cannot be a reality until** we leave the European Union.

British people last

The British fishing and farming industries have been destroyed to allow Spanish fishing vessels and French farmers to benefit instead.

It's time to **demand** the referendum promised to us and to give the British people the choice to take **Britain Out of the EU**.

Give us our referendum, Dave!

Remember David Cameron's election pledge – to give the British people a referendum on leaving the EU?

As with so many others, he broke that promise.

Join Nick Griffin's campaign to demand a referendum on British membership of the European Union.
