**BRITISH  
NATIONAL  
PARTY**

*Because we can make Britain better*

## Protecting English Culture for the Future Generations

The British National Party will give England its own Parliament, like that of Scotland and Wales, because English sentiment, culture and heritage should be respected and upheld. Minorities will no longer be pandered to, and we will ban the barbaric ritual slaughter of animals (i.e. unstunned halal and kosher meat), because it goes against English decency and the humane treatment of animals.

We will also withdraw from the EU, which currently makes 85% of our laws.

**WE WANT OUR COUNTRY BACK!**

Withdrawal from the EU will allow us to close the door on immigration!

“The British National Party recognises the right of legally settled and law-abiding minorities to remain in the UK and enjoy the full protection of the law, on the understanding that the indigenous population of Britain has the right to remain the majority population of our Nation”

Rebuilding Great Britain

The Manifesto of the British National Party 2010

# WE WANT OUR COUNTRY BACK

# Where We Stand

## ♥ A Better Living for the Elderly

The British National Party will raise the state pension to £150 per week. We'll do this by slashing foreign Aid. The Department of International Development (including the Barbados Office) will be shut down, saving £7.6 Billion. We'll put our own vulnerable people first.

## ♥ British Jobs for British Workers

When the British National Party says 'British Jobs for British Workers', we mean it! We'll bring the banks under proper control and protect Britain from the floods of foreign goods and labour, and secure a decent working future for British people.

## ♥ Family is the Bedrock of Society

We promote family values because they are the bedrock of a healthy community. We'll ensure married couples get tax breaks to encourage the stable family environment that gives children the best start in life.

Find out more about our policies, call **0844 809 4581** for your **FREE** information pack, and visit **www.bnp.org.uk**

## ♥ Deport Foreign Criminals

We will deport all foreign criminals and all convicted Muslim extremists, because it is not fair that the British taxpayer should be forced to pay for them.

The average annual cost per prisoner place is £35,000, a saving we are willing to make on each foreign criminal deported.

## ♥ British Army Only Used to Defend Britain

Our troops should not be sent to fight wars that are not in British interests.

British National Party members across the country are actively campaigning to bring our men and women home from Afghanistan – **NOW!**
